**Profile:** ActewAGL is Australia's first multi-utility to offer electricity, natural gas, water and wastewater services; Oracle environment.

**Project:** After successful implementation and use of Oniqua Analytics - Inventory and Procurement over many years, ActewAGL upgraded their legacy system to Oniqua Analytics Solution in 2008.

**Outcome:** *"With Oniqua, we reduced our spares inventory by 50%, increased our DIFOT [delivery in-full on-time] by 25% for our strategic inventory suppliers, and decreased late deliveries by 23% for strategic inventory."*
