

Profile:

Newmont Mining is one of the world's largest gold producers with \$22.3 billion in total assets and has over 33,000 employees and contractors worldwide.

Operations in eight countries - United States, Australia, Peru, Indonesia, Ghana, Canada, New Zealand and Mexico.

Benefits:

- Reduce risk to production
- develop and implement standard terminology
- consistent approaches and diligence to inventory and procurement optimization
- focus on optimization – not simply stock reduction
- all regions to the same level of sophistication for inventory and procurement analysis
- business process standardization and analytics scalability
- robust, standardized global reporting to track critical performance indicators.
